OBJECTIVE

Recent graduate seeking a machine learning engineering role. Strong project portfolio in NLP.

EXPERIENCE

Machine Learning Intern, Zentari Software
2025 - 2026

- Built a sentiment classification model with HuggingFace Transformers and PyTorch; deployed a demo with FastAPI and Docker.
- Wrote SQL queries to assemble the training dataset.

PROJECTS

- Resume-to-job matcher: TF-IDF and sentence embeddings, Streamlit front end.
- Abstractive news summariser fine-tuned from T5-small on PyTorch.
- Multilingual toxicity classifier; wrote the data collection scraper.

EDUCATION

B.E. in Computer Science, PSG College of Technology, 2026
CGPA 9.1/10. Coursework: machine learning, deep learning, NLP, databases.

SKILLS

Python, PyTorch, HuggingFace Transformers, NLP, scikit-learn, pandas, NumPy, SQL, Docker, FastAPI, Git, Linux, matplotlib, Streamlit
