SUMMARY

Principal Machine Learning Engineer, 9 years of experience across NLP, recommendation systems and large-scale ML platforms. Has led teams of six.

EXPERIENCE

Principal ML Engineer, Hanseatic Data GmbH

2020 - Present

- Led the NLP platform team; owned multilingual text classification and entity linking serving 40M requests/day.
- Architected the company's feature store and model serving layer on Kubernetes; standardised deployment for 30+ models.
- Built distributed training on Spark and PyTorch DDP across 64 GPUs.
- Set the org's model governance and monitoring standards.

Senior ML Engineer, Nordlicht Commerce

2017 - 2020

- Recommendation systems using collaborative filtering and neural rankers.
- Owned the A/B testing framework and statistical analysis of experiments.

EDUCATION

M.Sc. in Computer Science, TU Munich, 2017

B.Sc. in Mathematics, Humboldt University, 2015

SKILLS

Python, PyTorch, TensorFlow, Transformers, NLP, Spark, Kubernetes, Docker, AWS, GCP, SQL, Airflow, MLflow, Kubeflow, Git, Scala, Linux, A/B testing
